EASE SETUP

Add Plans

Ease has certain plans in the Ease rate library based on state and product type. There are several Express plans added for California, as well as Gap plans in states where Gap plans are shelf rated and available.

From Company Benefits > Actions

1. Choose **Add Plan**.

The 'Add Plan' modal form is shown. The 'Type' dropdown menu is open, displaying a list of plan types. The 'Accident' option is highlighted with a red box and an arrow. Other options include 'Intensive Care', 'Hospital Confinement', 'Chiropractic', and 'Acupuncture'. The form also includes fields for 'Carrier name' and 'Duplicate Plan', and an 'Add Plan' button at the bottom.

2. Choose plan type from drop menu.
3. Enter **Plan Name**.
4. Enter **Effective Date**.
5. Click **Add Plan**.

Critical Illness Plan Setup

For CriticalAssistance Plus, CriticalAssistance Advance and CriticalEvents, if using Ease Rate Library, everything should be correct. If not, ensure the plans are set up properly based on the following:

Level of Coverage

If offering multiple levels of coverage, i.e. \$10,000 and \$15,000, you must build as separate plans.

<input type="checkbox"/> 2018 CI 10K	Critical Illness	Transamerica	8/1/2018	7K4GLK
<input type="checkbox"/> 2018 CI 15K	Critical Illness	Transamerica	8/1/2018	EZTEMQ

Enable Tobacco

For plans rated based on tobacco use, to to Company > Settings > Optional Fields and check **Show Tobacco User**.

The screenshot shows the 'Optional Fields' settings page. Under the 'Employee Fields' section, the 'Show Tobacco User' checkbox is checked and highlighted with a red box. A red arrow points to this checkbox. Other visible checkboxes include 'Show Birthplace', 'Show Hire Date', 'Show Race', 'Show Citizenship', 'Show Job Title', 'Show Scheduled Hours', 'Show Compensation' (checked), 'Show Language', 'Show SSN' (checked), and 'Show County'.

Dependent Coverage

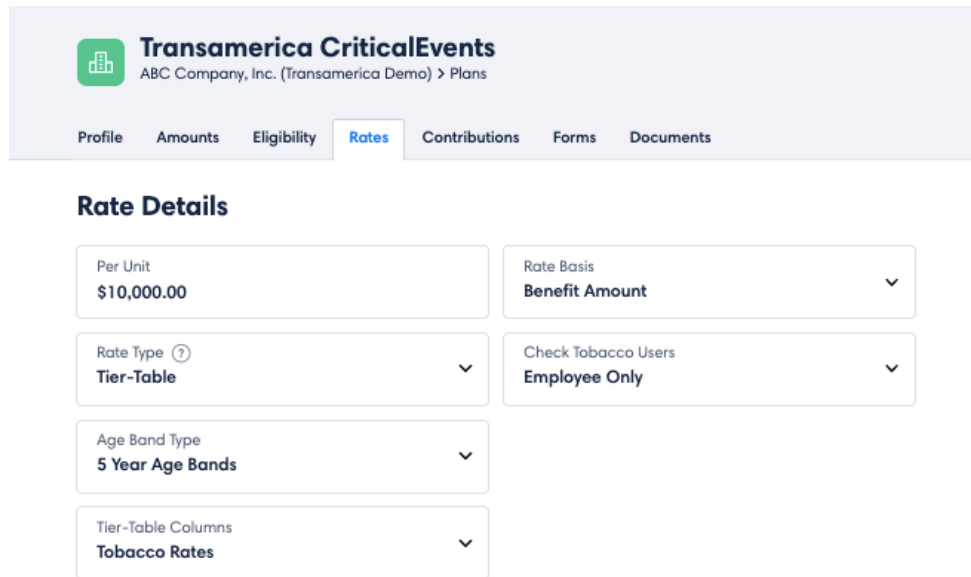

One benefit level must be chosen by the employee for the entire family. Rates are based on that benefit level. When building the plan, use the same benefit level for employee and dependents for accurate rates. Dependent coverage is issued for 50% of the elected benefit per plan summary.

The screenshot shows the 'Benefit Amounts' page for plan '2018 CI 10K'. It displays three benefit sections: 'Employee Benefit', 'Spouse/Partner Benefit', and 'Child Benefit'. Each section has a 'Benefit Type' dropdown set to 'Flat Amount' and a 'Flat Amount' field set to '\$10,000.00'. The 'Flat Amount' fields are highlighted with red boxes and red arrows. The 'Guaranteed Issue' field for the Employee Benefit is also set to '\$10,000.00', while for the Spouse/Partner and Child benefits, it is '\$0'.

Rate Format

For Critical Illness Plans, in Plan > Rates, enter the following:

- Per Unit = Enter the level of coverage
- Rate Type = Tier Table
- Age Band Type = Select either 5 Year
- Tier-Table Columns = Select Tobacco, if applicable, or leave as default

The screenshot shows the 'Rates' tab in the Transamerica CriticalEvents interface. The header includes the company name 'Transamerica CriticalEvents' and the breadcrumb 'ABC Company, Inc. (Transamerica Demo) > Plans'. Below the header is a navigation bar with tabs: Profile, Amounts, Eligibility, Rates (selected), Contributions, Forms, and Documents. The main section is titled 'Rate Details' and contains several configuration fields:

- Rate Type:** Tier-Table (dropdown arrow with a help icon)
- Check Tobacco Users:** Employee Only (dropdown arrow)
- Age Band Type:** 5 Year Age Bands (dropdown arrow)
- Tier-Table Columns:** Tobacco Rates (dropdown arrow)
